Assistant Professor Renewable Energy
Ohio State ATI is accepting applications for a nine-month, professional track faculty position in Renewable Energy with a focus on the bioconversion of biomass to energy. The candidate will also serve as coordinator for the Renewable Energy program which includes solar and wind components.

Qualifications
A Ph.D. in Engineering, Environmental Science, Microbiology, or related fields is required. The ideal candidate will have demonstrated experience teaching undergraduate courses.

The Institute
Ohio State ATI ([http://ati.osu.edu/home](http://ati.osu.edu/home)) is located in Wooster, Ohio and is part of The Ohio State University College of Food, Agricultural, and Environmental Sciences (CFAES). The institute maintains a close relationship with the co-located Ohio Agricultural Research and Development Center (OARDC) and Ohio State University Extension (OSUE). The purposes of the institute are to offer: 1) associate of science and associate of applied science degrees and certificates which include general and technical courses; 2) credit and non-credit continuing education and workforce development opportunities; and 3) transfer programs leading to higher levels of education. Ohio State ATI is the largest institution of its kind in the nation, enrolling approximately 700 students and offering twenty-nine programs of study. Ohio State ATI is consistently ranked number one in the nation among two-year schools in the awarding of associate degrees in agriculture and related sciences. Students participate in a curriculum that provides excellent career preparation, combining coursework with a variety of hands-on practical experiences and the opportunity to make professional contacts through paid internships.

The Renewable Energy Program Focus Areas
The Renewable Energy Program at Ohio State ATI focuses on the bioconversion of organic materials from agricultural, industrial, and municipal byproducts and waste to biogas. Wind and solar energy are also important components of the program. Additional details regarding the program and facilities are available at: greenenergy.osu.edu.

Responsibilities
This position is 75% teaching and 25% service and scholarly activity. Teaching responsibilities include introductory to advanced courses in Renewable Energy with an emphasis on anaerobic digestion. The successful candidate will also be
responsible for: curriculum and instructional laboratory development and assessment; assisting the division chair in scheduling classes, developing syllabi, advertising, hiring and orienting associated faculty in Renewable Energy; collaboration with the Department of Food, Agricultural, and Biological Engineering and the School of Environment and Natural Resources to coordinate the continuity of higher level courses; lead student recruitment in the Renewable Energy area, advise students on academic matters, and guide student organizations. Additionally, participation in professional development, scholarly activity and providing leadership and service to the Institute, College, University, and professional organizations is required.

Application Instructions
To apply: send 1) a letter of interest, 2) curriculum vitae, 3) official transcripts of educational records and 4) a list of three professional references qualified to comment on the applicants knowledge, skills and experiences relevant to the position. E-mail these materials to Dr. Jon Witter at witter.7@osu.edu. Transcripts can be mailed to Jon Witter, Ohio State ATI, The Ohio State University, 1328 Dover Rd., Wooster, Ohio 44691. Review of applications will begin on May 18, 2015 and continue until the position is filled.

The Ohio State University is committed to establishing a culturally and intellectually diverse environment, and encouraging all members of our learning community to reach their full potential.
